TEKLA50

## Bluetooth 5.0 – Superior Connectivity

Thanks to the bluetooth 5.0 chip the Tekla 50 speaker features a way faster, more stable transmission and yet a lower power consumption than previous bluetooth versions.

## Hi fidelity Level Sound & DSP technology

With an engineered wood cabinet to perfectly complement its 5.25" High Power Woofer and its 2" Tweeter, for a powerful, dynamic and clear sound profile with distinct definition between mids, highs, and lows. Class D amplifier with Latest Digital Signal Processing (DSP) technology to enhance the sound stage experience.

Class D amplifier with Digital Signal Processing (DSP)

50W into 4ohm RMS Max 2ohm

1 x 40 Watt Class D amplifier for the woofer

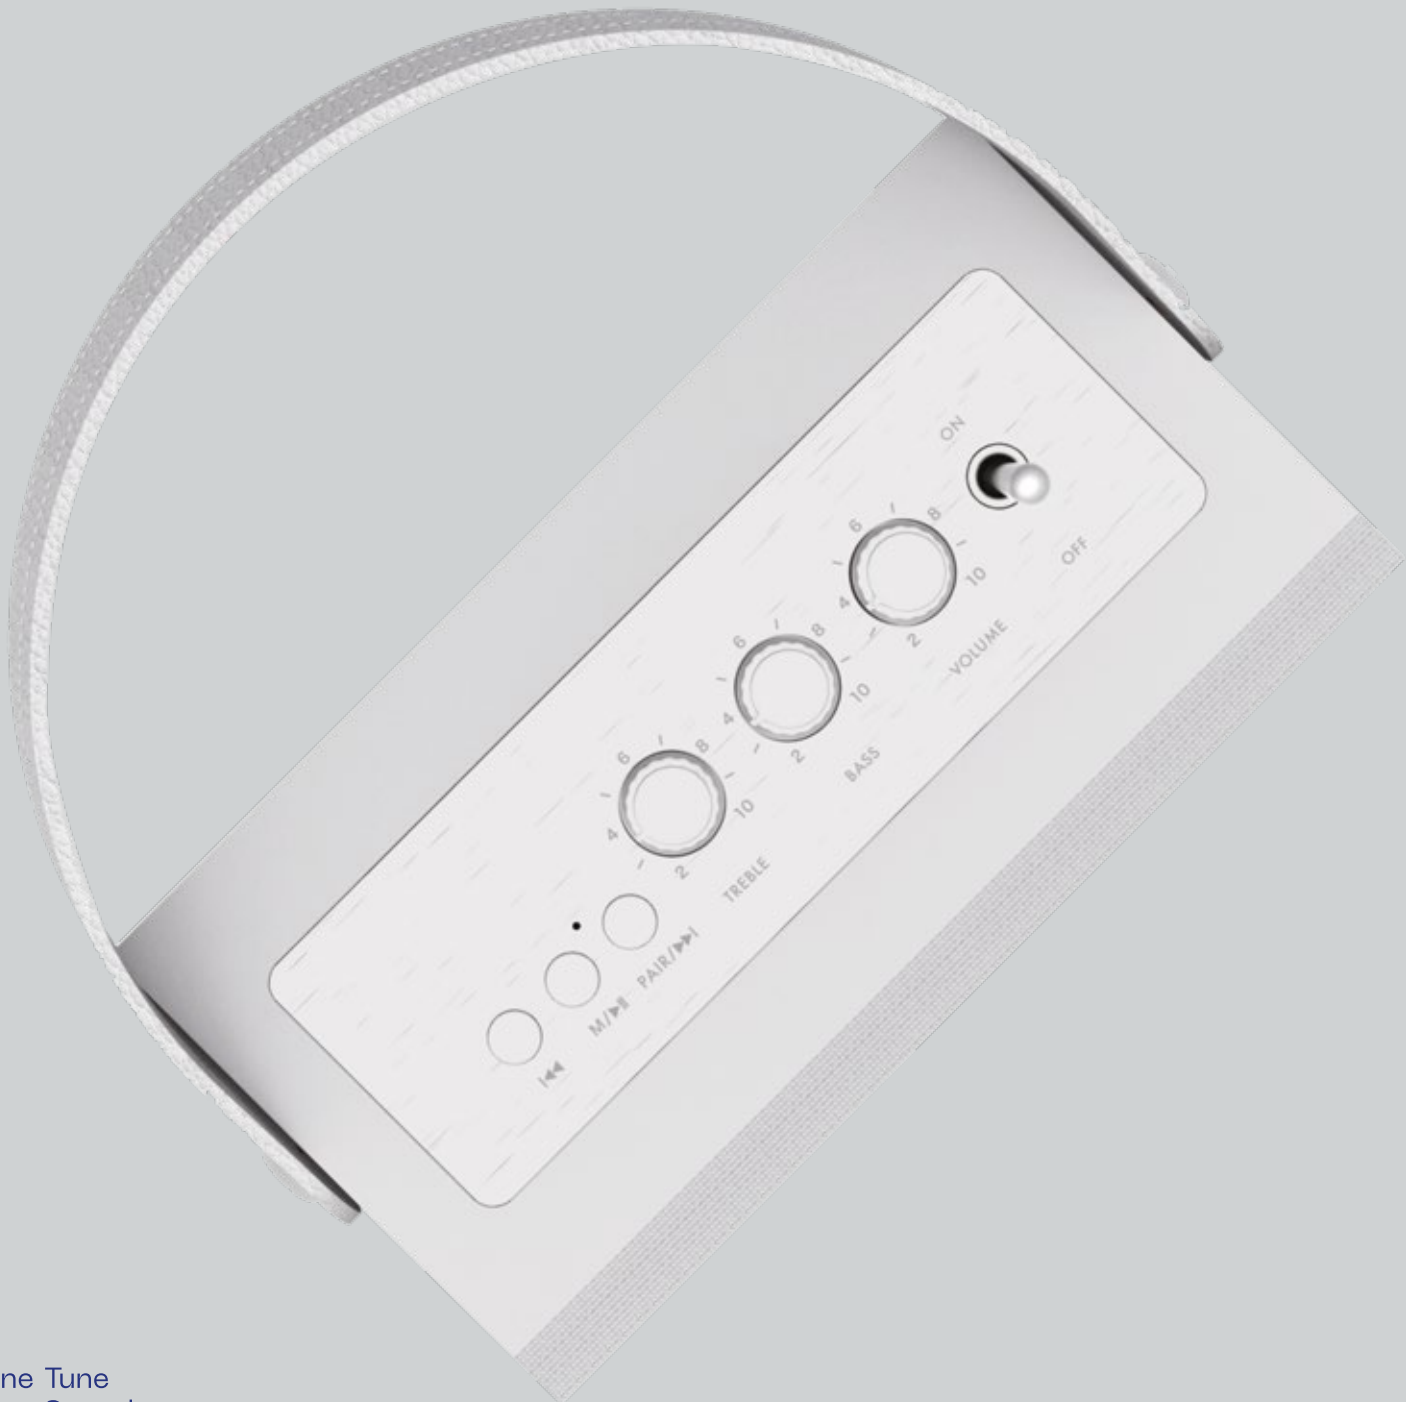

1 x 10 Watt Class D amplifier for the tweeter

## Fine Tune Your Own Sound

Create your own sound stage by adjusting the base and the treble to the music you are listening to. Furthermore you can pause, forward or go backwards on your playlist with the buttons on the control panel.

## Dual Speaker Pairing (TWS)

When you have two N&C Majestic Sounds speakers, you can couple pair them together. This means that you can play the same music synchronized to both speakers and enjoy your music in different rooms.

## Integrated Wall Mount – Keyhole Slots

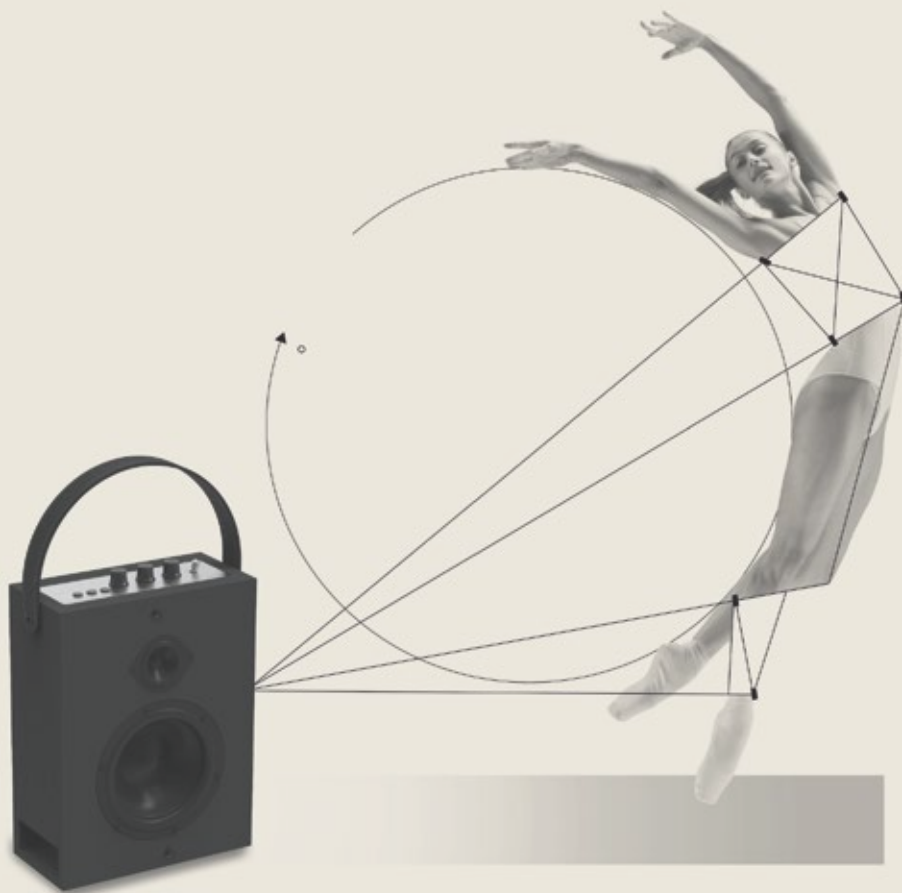

Tekla 50 has integrated keyhole slots/wall mounts on the back so the unit can easily be mounted to a wall. (Screws/plugs are not included due to different wall types.)

## Portable Sound and Comfortable Handle

With 10 hours of portable battery play time and a comfortable carry handle you are able to bring your favourite music almost anywhere. The carry handle is also removable if you want a different and more slick look.

Model name:	N&C Majestic Sounds Tekla 50
Color:	White or Black
Screen:	Removable White or Black
Cabinet:	Sealed Mdf Wood Cabinet
Cabinet Principle:	Inverted Bass-Reflex
Operating Range:	40Hz (-3dB) to 20Khz
